## Training Workshops

We always receive extremely positive feedback and a real heartfelt request to get our resources to a wider group. Below are some photos with comments from people who have attended our trainings:

- *“Very informative and helpful especially the lessons and programme books handed out will be a great help to teachers. The important topics and concepts were covered and thoroughly explained. The material is easy to read and understand. There is no need to struggle to look for answers to questions and topics.”* Grade R educator.
- *“Very empowering, motivating, full of information which is relevant to my teaching programme. I feel all topics were adequately covered and just enough information was shared with us. I am very impressed by the tools used and I’ll definitely be using it in my classroom.”* Grade R educator.

- *“I enjoyed every moment but the singing was enjoyable. The reason I attended the workshop (is) to make a difference at my school and community. Thank you for taking the time to empower us. You’ve made implementing the programme at school easy because of the information you’ve given us.”* Grade R educator.
- *“Very informative regarding tools, techniques and demonstrations, action songs. Great songs as well that the children will enjoy. Very practical and therefore easy to remember and to apply.”* Grade R educator.

- *“Was very well presented – I enjoyed it a lot. Topics are relevant for the issues we deal with in our country and schools. Through repetition, it equipped us with the skills to use it effectively in our classrooms. The learners will thoroughly enjoy it. It is easy to make all the resources – examples are provided in the manuals.”* Grade 2 educator
- *“So helpful, exciting and bringing me back to the importance of my job as an educator. Everything was well linked and well presented. The workshop was hands-on and the practical exercises done during the workshop will help me to recall and remember.”* Grade 2 educator

### Programme being run in Independent Crèches

*NB. The clarity of the photos (especially of the children we have worked with) is unfortunately “poor” on purpose. We have many photos of smiling happy children actively involved in the **ThinkTwice** Grade R: Jerry Giraffe programme but we have a responsibility to protect their identity. So we apologise that most of the photos don't capture this.*
